INDEX TO TECHNICAL NEWS BULLETIN 1941, NUMBERS 285 TO 296, INCLUSIVE

A

Page

Acids, affinities for wool protein 34
Adhesive strength of gummed paper sealing tape 104
Adhesives for floor coverings 7
Aeronautical Sciences, Institute of the, presents Reed Award to H. L. Dryden 21
Air content of fresh concrete 69
Aldehyde groups in hydrocellulose from cotton, estimation 98
Alloys, iron-carbon, structure of 59
Aluminate, tricalcium, structure 106
Aluminum alloy, heat-treated, quenching 36
Aluminum bronze, corrosion pitting, in water 15
Amalgams, dental, analysis 53
Amalgams, dental, excessive expansion 95
American Physical Society meeting 51
Anesthetic gas cylinders, color marking 43
Aqueous extracts, changes when stored in glass bottles 89
Arctic expedition, Louise A. Boyd 57, 103
Ascorbic acid concentration, rapid method for determining 13
Asphalt-prepared roll roofings and shingles, general information 63
Asphalts and crude oils, determining components 45
Audio frequency broadcasts resumed 31
Aurora of September 18, 1941 85
Azeotropic distillation of hydrocarbons 60

B

Base-combining capacity of cotton 27
Bates, Frederick J., becomes chief of Optics Division 11
Beams, modulus of rupture 69
Blueprint papers, sensitometric method of evaluating 32
Board, insulating, structural, simplified practice recommendation 82
Boards, fiber sheathing, stability 34
Boards, fiber tile 104
Boiling points of some organic liquids 13
Bond stress in concrete reinforcing bars 4
Boric oxide, crystalline, thermal expansion 90
Bottles, glass, effects of, on stored aqueous extracts 89
Boxes, folding and set-up paper, revised simplified practice recommendation 38
Boyd, Louise A., arctic expedition 57, 103
Brake linings, effect of roughness of brake drums on wear 88
Brick, building, thermal expansion 68
Brick, clay building, thermal expansion 17
Bricks, action of frost on 25
Brickwedde, F. G., receives award of Washington Academy of Sciences 41
Brickwedde, F. G., receives Hillebrand Prize 31
Broadcasts, standard frequency, revised 31

C

Page

Cadmium sulfate, metastability, and its effect on electromotive force of saturated standard cells 43
Calcium chloride, effect on strength of concrete at low temperatures 107
Calcium sulfate, behavior at high temperatures 70
Calking lead, commercial standard 97
Calorimetry, temperature correction methods 108
Camera, corona, design and construction 77
Cameras, airplane mapping, locating principal point 86
Cans for fruits and vegetables, simplified practice recommendation 37
Carbohydrate content of collagen 106
Carbohydrates, chemical reactions of chlorites with 71
Carbon dioxide evolved from leather 80
Carbon monoxide, determination 53
Carbon paper and typewriter ribbons 82
Cathode films in electrodeposition 59
Cathodic protection of pipe lines, present status 109
Ceiling height, photoelectric measurement in daytime 1
Cells, saturated standard, effect of metastability of cadmium sulfate on electromotive force 43
Cells, standard, containing deuterium oxide, electromotive force 108
Cellulose acetate sheeting for protecting documents 32
Cellulose acetate sheeting for protectium 105
Cellulose, fluidities of dispersions 105
Cement clinker, portland, microscopic structures 4
Cement, portland, garnet-hydrogarnet series formed during setting 4
Cements, portland heats of hydration 35
Cements, portland, sulfate resistance 70
Ceramic ware, maturing temperatures 108
Chemical durability of glass 71
Chemical durability of glass and its effect on the glass electrode 60
Chemical glassware, comparative tests 54
Chemical reagents, resistance of plastics to 70
Chimneys, efficiency 16
Chlorites, chemical reactions with carbohydrates 71
Chlorites for treating raw sugars 106
Chromium, electrolytic, thermal expansion 2, 73
Cloud heights, photoelectric measurement, in daytime 1
Coatings for pipes, API tests—final report 24
Coatings, protective for pipe lines 37
Code for electricity meters 73
Cold-rolling, effect on development of texture in copper 44
Collagen, carbohydrate content 106
Color marking of anesthetic gas cylinders 43
Colorimetric determination of phosphorus in steel and cast iron 45

Page

Commercial standards for calking lead, lead pipe, and lead traps and bends 97
Commercial standard for diamond core drill fittings 83
Commercial standard for Douglas fir plywood 7
Commercial standard for portable electric drills 97
Commercial standard for stair treads and risers 7
Commercial standard for tank stock lumber 63
Commercial standard for phenolic disinfectants 62
Concrete at low temperatures, effect of calcium chloride on strength 107
Concrete floor construction, Portland Cement Association's, structural properties 16
Concrete, fresh, air content 69
Concrete reinforcing bars, bond stress 4
Concrete walls, monolithic, nonreinforced 16
Conference on Weights and Measures Thirty-first National 57
Conservation of gasoline 87
Copper, development of texture by cold-rolling 44
Copper tanks in industry 96
Corrosion pitting of aluminum bronze and monel metal in water 15
Corrosion studies, soil 90
Corrosion tests, soil, materials 54
Cotton bags, mildew resistance 89
Cotton, base-combining capacity 27
Cotton fiber, microscopic structure 14
Cotton fibers, surface characteristics 3
Cotton, hydrocellulose from, estimation of aldehyde groups 98
Cotton yarns, breaking strength and elongation 81
Coverings, floor, indentation characteristics 55
Coverings, floor, performance tests 46
Cuprammonium, dissolving cellulose in 105
Currency paper, wearing quality 54
Cystine, role of, in the structure of wool 62

D

Defense program and simplified practice 95
Density of crystalline rubber 80
Dental amalgams, analysis 53
Dental amalgams, excessive expansion 95
Deuterium oxide, effect on electromotive force of standard cells 108
Dial-painting industry, radium, safe practices 52
Diamond-core drill fittings, revised commercial standard 83
Diamond, Harry, receives award of Washington Academy of Sciences 41
Diaphram type pressure indicators 22
Disaccharides, enzymatic hydrolysis 60
Disinfectants, phenolic, commercial standards 63
Distillation, azeotropic, of hydrocarbons 60
Distillation of gases 22
Documents, protection with cellulose acetate sheeting 32
Douglas fir plywood, commercial standard 7
Dressings, first-aid unit, packaging, simplified practice recommendation 81
Drill fittings, diamond-core, revised commercial standard 83
Drills, portable electric, commercial standard 97
Dryden, Hugh L., receives Sylvanus Albert Reed Award 21
Dyes used as indicators, effects of salts on color 90

E

Page

Eclipse apparatus, design and construction 77
Eclipse radio observations of the ionosphere 77
Educational courses, 1941–42 91
Electric drills, portable, commercial standard 97
Electric supply and communication lines, installation and maintenance 100
Electrical Safety Code, National (Part II) 100
Electricity Meters, Code for 73
Electrode, glass, and chemical durability 60
Electrodeposition, cathode films in 59
Electrodeposition, technical practice, theory of the potential 22
Electromotive force of standard cells containing deuterium oxide 108
Electromotive force of saturated standard cells, effect of metastability of cadmium sulfate 43
Electronic timer 109
Electrophoretic studies of nylon 33
Electroplating, effect of polishing base metal 59
Enzymatic hydrolysis of disaccharides 61
Enzymes, action on glycosides 28
Enzymes, digestion, resistance of wool to 98
Expansion, excessive, in dental amalgams 95
Expansion, thermal, of electrolytic chromium 2
Exponential integrals, tables of sine, cosine and 38, 64

F

Fabrics, pliability, Planoflex for evaluating 97
Fiber-board walls, improvement in 27
Fiber, cotton, microscopic structure 14
Fiber tile boards 104
Fiber, cotton, surface characteristics 3
Fibroin, silk, combination with acid and with base 3
Field equipment for ionosphere measurements 42
Fire tests of partitions 67
Flax and linen, a domestic supply 104
Floor construction, concrete, Portland Cement Association's, structural properties 16
Floor coverings, adhesive for 7
Floor coverings, indentation characteristics 55
Floor coverings, performance tests 46
Fluidities of dispersions of cellulose 105
Fluorescent lamps, radiation from 11
Fluorine, quantitative determination in organic compounds 72
Food service equipment, simplified practice recommendation 109
Forging steel, medium-carbon, toughness 73
Frames, rigid, stresses in 96
Freezing points, determination 53
Freezing temperatures of irons and steels 36
Frequency meter, a sensitive 21
Frequency, standard, revised broadcasts 31
Frost action on bricks 25
Frost resistance, physical properties of stone as indicators 17
Functions, probability, tables 100
Furnace, high-temperature 108

G

Gage on oxygen tank, failure 88
Garnet-hydrogarnet series formed during setting of portland cement 4
Gas analysis apparatus, manometric 36

Page

Gas analysis apparatus, volumetric 36
Gas cylinders, anesthetic, color marking 43
Gas mixture, apparatus for gravimetric determination of constituents 36
Gases, separation by distillation 22
Gasoline conservation 87
Gauze, surgical, simplified practice recommendation 81
Georgia, time zone change 109
Glass, boric oxide, thermal expansion 90
Glass bottles, effects on aqueous extracts 89
Glass, chemical durability 71
Glass electrode and chemical durability 60
Glass stopcocks 58
Glassware, chemical, comparative tests 54
Gloss, specular, liquid surface as a standard 14
Glycosides, action of enzymes on 28
Glycosides, rotatory relationships 61
Grapefruit, influence on human organism 13
Gravimetric determination of constituents of a gas mixture, apparatus 36

H

Hardness, surface, of printing plates 22
Head meters, installation requirements 79
Heat-treated aluminum alloy, quenching 36
Heater, gas, for testing chimneys 16
Heating, solar, of various surfaces 35
Heats of hydration of portland cements 35
Heats of isomerization of heptanes 107
Heats of isomerization of hexanes 79
Heptanes, heats of isomerization 107
Hexanes, heats of isomerization 79
High-temperature furnace 108
Hillebrand Prize awarded to F. G. Brickwedde 31
"Homasote" wall constructions 64
Horological Institute of America, annual meeting 50
Hosiery, unusual failures in service 33
Hospital plumbing fixtures, revised simplified practice recommendation 73
House constructions, "Mu-steel" 64
Humidity of air in houses 6
Hydrocarbons, azeotropic distillation 60
Hydrocarbons in kerosine fraction of petroleum, isolation 87
Hydrocarbons in kerosine fraction of petroleum, progress report 99
Hydrocarbons, paraffin, isomerization 106
Hydrocellulose from cotton, estimation of aldehyde groups 98
Hydrogen determination in iron and steel 23
Hydrogen deuteride, work on, F. G. Brickwedde receives Hillebrand Prize 31

I

Indentation characteristics of floor coverings 55
Indicators, effects of salts on color 90
Indicators, pressure, diaphragm type 22
Instruments and methods of radiometry 41
Insulating board, structural, simplified practice recommendation 82
Insulating board walls, improvement in 27
Insulation, sound, determining efficiency of, in the field 45
Integrals, exponential, tables of sine, cosine, and 38, 64
Inversion, Walden, in sugar series 98
Ionosphere and aurora of Sept. 18, 1941 85

Page

Ionosphere conditions at high latitudes 57, 103
Ionosphere measurements, field equipment 42
Ionosphere radio observations during an eclipse 77
Iron and steel, hydrogen in, determination 23
Iron-carbon alloys, structure 60
Iron, freezing temperature 36
Iron, magnetic saturation induction 2
Isomerization of paraffin hydrocarbons 106

K

Kerosine fraction of petroleum, hydrocarbons in, progress report 99
Kerosine fraction of petroleum, isolation of hydrocarbons 87
Knee, rectangular, of rigid frame, stresses in 96

L

Lamp and signal equipment, vehicular, priorities in materials 87
Lamps, fluorescent, radiation from 11
Lead, calking, lead pipe, and lead traps and bends, commercial standards 97
Lead compounds, X-ray patterns 53
Leaky masonry walls, cause and cure 26
Leather, applications of statistical methods to sampling 28
Leather, evolution of carbon dioxide and water from 80
Leather, permeability to water vapor 28
Lenses, photographic, test charts 51
Linen and flax, a domestic supply 104
Lines, electric supply and communication, installation and maintenance 100
Liquid surface as a standard of specular gloss 14
Lithography, multicolor, moisture control of paper 27
Lloyd, Morton G., death of 49
Logarithms, natural, tables of 74, 100
Lorentz polarization term in oblique-incidence radio transmission 12
Low temperatures, strength of concrete, effect of calcium chloride 107
Lumber, tank stock, commercial standard 63
Luminous paint for dials, safe practices in handling 52

M

Magnetic phenomena at high latitudes 57, 103
Magnetic saturation induction of iron 2
Mannose, preparation 2
Manometric gas analysis apparatus 36
Mapping cameras, airplane, locating principal point 86
Masonry, exterior, paints for 5
Masonry walls, leaky, cause and cure 26
Masonry walls, permeability, effect of weathering 96
Masonry walls, permeability, effect of wetting and drying 5
Materials in soil-corrosion tests 54
Mathematical tables of sine, cosine, and exponential integrals 38, 64
Mathematical tables of natural logarithms 74
Mathematical tables of probability functions and of natural logarithms 100
Mercury vapor, hazard in scientific laboratories 44
Meter, frequency, a sensitive 21
Meters, electricity, code for 73
Meters, head, installation requirements 79

Page

Microscopic structure of the cotton fiber 14
Microscopic structure of the wool fiber 72
Microscopic structures of portland cement clinker 4
Mildew resistance of cotton bags 89
Modulus of rupture of beams 69
Moisture condensation in building walls 26
Moisture control of paper in multicolor lithography 27
Monel metal, corrosion pitting in water 15
Munson and Walker's reducing-sugar tables 79
"Mu-steel" sheet steel house constructions 64

N

National Conference on Weights and Measures, Thirty-first 58
National Electrical Safety Code (Part II) 100
Natural logarithms, table 74, 100
Neodymium, spectrophotometric determination 52
Nylon, electrophoretic studies 33

O

Oils, crude, and asphalts, determining components 45
Optics Division, Frederick J. Bates succeeds Clarence A. Skinner as chief 11
Organic compounds, quantitative determination of fluorine 72
Organic liquids, boiling points 13
Oxygen tank, failure of gage on 88
Ozone in the stratosphere 12

P

Paints as protection against sun's heat 35
Paints for exterior masonry 5
"Panelbilt" house, structural properties 82
Paper, basic sheet sizes 15
Paper boxes, folding and set up, revised simplified practice recommendations 38
Paper, carbon, and typewriter ribbons 82
Paper, currency, wearing quality 54
Paper in multicolor lithography, moisture control 27
Papers, blue-print, sensitometric method of evaluating 32
Paraffin hydrocarbon, isomerization 106
Partitions, fire tests 67
Partitions, metal, for toilets and showers, simplified practice recommendations 8
Permeability apparatus, air, for measuring specific surface 4
Permeability of leather to water vapor 28
Permeability of masonry walls, effect of weathering 96
Permeability of masonry walls, effect of wetting and drying 5
Petroleum, kerosine fraction, hydrocarbons in, progress report 99
Petroleum, kerosine fraction, isolation of hydrocarbons in 87
Phase equilibrium studies involving potash 82
Phenolic disinfectants, commercial standards 63
Phosphorus, colorimetric determination in steel and cast iron 45
Photochemical reactions in silk 61
Photoelectric measurement of cloud heights in daytime 1
Photographic lenses, test charts 51
Photometer, a physical 78
Physical Society, American, meeting 51
Pipe-coating tests, API—final report 24

Page

Pipe, corrosion of buried 90
Pipe, lead, commercial standard 97
Pipe lines, present status of cathodic protection 109
Pipe lines, protective coatings 37
Planoflex for evaluating pliability of fabrics 97
Plastics, resistance to chemical reagents 70
Plated coatings, effect of polishing base metal 59
Pliability of fabrics, Planoflex for evaluating 97
Plumbing fixtures, hospital, revised simplified practice recommendation 73
Plumbing manual 16
Plumbing systems, estimating loads 24
Plywood, Douglas fir, commercial standard 7
Polarization term, Lorentz, in oblique-incidence radio transmisson 12
Polishing base metal, and its effect on plated coatings 59
Portland cements, heats of hydration 35
Potash, phase equilibrium studies involving 82
Potential theory, and technical practice of electrodeposition 22
Praseodymium, spectrophotometric determination 52
Prefabricated house constructions, "Mu-steel" 64
Pressure indicators, diaphragm type 22
Principal point of airplane mapping cameras 86
Printing plates, surface hardness 23
Priorities in materials for vehicular lamp and signal equipment 87
Probability functions tables 100
Protection of documents with cellulose acetate sheeting 32
Protein, wool, affinities of strong acids for 34

Q

Quenching of heat-treated aluminum alloy 36
Quinone sulfonates, effects of salts 90

R

Radiators, large-tube cast-iron, simplified practice recommendation revised 90
Radio conditions in ionosphere, field equipment for studying 42
Radio frequency broadcasts revised 31
Radio observations of the ionosphere during an eclipse 77
Radio phenomena in high latitudes 57, 103
Radio, recent applications, to weather reporting 13
Radio transmission and aurora of September 18, 1941 85
Radio transmission, oblique-incidence, and the Lorentz polarization term 12
Radiometry, instruments and methods 41
Radium dial-painting industry, safe practices in 52
Radium, protection of personnel handling 43
Reed Award presented to Hugh L. Dryden 21
Reflectance, specular, liquid surface as a standard 14
Refection-transmission relationships in sheet materials 99
Refractory, flint clay, sodium aluminate and atmospheric effects on properties 18
Reinforcing bars for concrete, bond stress in 4
Ribbons, typewriter, and carbon paper 82
Roofing materials, survey in north central States 83

	Page
Roofing, survey of, in the United States	6
Roofings, roll, asphalt-prepared, general information	63
Rotatory relationships of glycosides	61
Rubber, a central organization for fundamental research	105
Rubber: a guide to the literature	15
Rubber, crystalline, density	80

S

Safe practices in radium dial-painting industry	52
Safety Code, National Electrical (Part II)	100
Salts, effects of, on quinone sulfonates	90
Samarium, spectrophotometric determination	52
Sensitometric method of evaluating blueprint papers	32
Sheathing boards, fiber, stability	34
Sheet materials, reflection-transmission relationships	99
Shingles, asphalt-prepared, general information	64
Showers, metal partitions, simplified practice recommendation	8
Signal equipment and lamps, vehicular, priorities in materials	87
Silk fibroin, combination with acid and with base	3
Silk, photochemical reactions in	62
Simplified practice and the defense program	95
Simplified practice recommendation for basic sheet sizes of paper	15
Simplified practice recommendation for cans for fruits and vegetables	37
Simplified practice recommendations for folding and set-up paper boxes	38
Simplified practice recommendation for food service equipment	109
Simplified practice recommendation for hospital plumbing fixtures	73
Simplified practice recommendation for large-tube cast-iron radiators	90
Simplified practice recommendation for metal partitions for toilets and showers	8
Simplified practice recommendation for packaging of first-aid unit dressings and treatments	81
Simplified practice recommendation for structural insulating board	82
Simplified practice recommendation for surgical gauze	81
Skinner, Clarence A., retires as chief of Optics Division	11
Sodium aluminate and atmospheric effects on properties of a flint-clay refractory	18
Soil-corrosion tests, materials in	54
Soil-corrosion studies	90
Solar heating of various surfaces	35
Sound transmission loss, determining it in the field	45
Spark test for steels	45
Spectrographs, eclipse, design and construction	77
Spectrophometric determination of praseodymium, neodymium, and samarium	52
Specular gloss, liquid surface as a standard	14
Stability of fiber sheathing boards	34
Stair treads and risers, commercial standard	7
Standard frequency broadcasts revised	31
State utilities commission engineers, nineteenth conference	50
Statistical methods as applied to sampling of leather	28
Steel, hydrogen in, determination	23
Steel, medium-carbon forging, toughness	73
Steels, freezing temperatures	36
Steels, spark test for identifying	45
Stockings, unusual failures in service	33
Stone, physical properties, as indicators of frost resistance	17
Stopcocks, glass	59
Stratosphere, ozone in, distribution	12
Stresses in rigid frames	96
Structural properties of "U. S. S. Panelbilt" house	82
Structure of iron-carbon alloys	60
Sugar series, Walden inversion in	98
Sugar tables, reducing, Munson and Walker's	79
Sugars, raw, chlorites for treating	106
Sulfate resistance of portland cements	70
Surface, specific, measurement by air permeability	4
Surgical gauze, simplified practice recommendation	81

T

Tables of sine, cosine, and exponential integrals	38, 64
Talcose whiteware, properties	25
Tank stock lumber, commercial standard	63
Tape, gummed paper sealing, adhesive strength	104
Temperature correction methods in calorimetry	108
Temperatures, freezing, of irons and steels	36
Texture in copper, development by cold-rolling	44
Thermal expansion of boric oxide glass and of crystalline boric oxide	90
Thermal expansion of building brick	68
Thermal expansion of chromium	73
Thermal expansion of clay building brick	17
Thermal expansion of electrolytic chromium	2
Tile boards, fiber	104
Time intervals, broadcasts resumed	31
Time zone change in Georgia	109
Timepieces, testing	99
Timer, electronic	109
Toilets, metal partitions, simplified practice recommendation	8
Toughness of medium-carbon forging steel	73
Traps and bends, lead, commercial standard	97
Treatments, first-aid unit, packaging, simplified practice recommendation	81
Tricalcium aluminate, structure	106
Turanose, hydrolysis	2
Typewriter ribbons and carbon paper	82

U

Ultraviolet radiation, continuous measurement	41
Ultraviolet radiation from fluorescent lamps	11
Ultraviolet radiation in high latitudes	57, 103
Utilities commission engineers, State, nineteenth conference	50

V

Vehicular lamp and signal equipment, priorities in materials	87
Volt boxes, testing and performance	79
Volumetric gas analysis apparatus	36

W

Walden inversion in the sugar series	98
Wall constructions "Homasote"	64
Walls, building, moisture condensation in	26
Walls, concrete, monolithic, nonreinforced	16

	Page
Walls, fiberboard, improvement in	27
Walls, masonry, leaky, cause and cure	26
Walls, masonry, permeability, effect of wetting and drying	5
Walls, masonry, permeability, effect of weathering	96
Washington Academy of Sciences grants awards to Harry Diamond and F. G. Brickwedde	41
Water evolved from leather	80
Wearing quality of currency paper	54
Weather reporting, recent applications of radio	13
Weights and Measures, Thirty-first National Conference	58
Whiteware, ceramic talcose, properties	23
Wolff, Frank A., retires	49
Wool fiber, microscopic structure	72
Wool protein, affinities of acids for	34
Wool, resistance to digestion by enzymes	98
Wool, role of cystine in the structure of	62
X, Y, Z	
X-ray patterns of some lead compounds	53
Yarns, cotton, breaking strength and elongation	81
